

## **‘Food Additives & Contaminants Part A’**

### **Proceedings of 2<sup>nd</sup> ICFC 2017 – International Conference on Food Contaminants - Special issue**

#### **Instructions to authors**

##### **All papers MUST be submitted via Manuscript Central**

<http://mc.manuscriptcentral.com/tfac>

- New Authors will need to create an account before they can submit their manuscript.
- The instructions during electronic submission are self-explanatory in terms of details that need to be provided and uploading Files etc.
- During submission you will be asked the question ‘Is this manuscript for a Special issue?’ – Answer ‘Yes’ and indicate ‘ICFC Conference’

The following provides a short guide indicating some problems that occur frequently. Full detailed Instructions can be found on the web-site:

<http://tandfonline.com/action/authorSubmission?journalCode=tfac20&page=instructions>

**Main document** - Upload as ‘Main document with author details’ from drop-down menu. Please provide full details of all authors with family and given name, all addresses and contact details for Corresponding author.

**Title** – check title gives all critical information about paper

**Abstract** - describe in brief terms what work was conducted and the results. The Abstract is NOT the place to give background or justification. The Abstract is limited to 300 words.

Sections are NOT numbered in FAC

**Introduction** – Give a critical review of the literature to provide context and background to your publication. Describe strengths and weaknesses of other publications and describe ‘state-of-the-art’. It is good to give a clear statement of gaps and thus indicate what is new about research being reported. The novelty of the research being reported is an important aspect in the peer-review process, and it is good if this is explicitly stated.

##### **Materials & Methods**

Please ensure full details of chemicals used, instrumentation and the analytical method is described in sub-sections. Take care NOT to include any results in this section or any discussion. If you are using any already published methodology you only need to cite the reference but please note any modifications to existing methodology.

## Results & Discussion

Can be combined as above or separate.

Please give a reasoned discussion of your results and their implications

## Conclusions

Optional – not necessary to give Conclusions if it is only repeating what has already been discussed above.

## References

References are cited in the text by Author (year) and listed alphabetically by author in Reference section. Please ensure that all statements in Introduction and Discussion are supported by relevant citations.

## Figures

Figures MUST be clear and legible bearing in mind they will be reduced in size in printed copy of the journal. Figures should be black and white as color is expensive and will be charged as extra to MAPA. Please remove unnecessary computer print-out from figures and include only essential information. Please upload Figures in TIFF format.

## Handling of manuscripts

**All manuscripts MUST be submitted by the deadline of Sept 30<sup>th</sup> 2017**

- All manuscripts will be peer-reviewed by a minimum of two independent referees – only manuscripts recommended for publication can be accepted.
- It usually takes at least 4-6 weeks from submission to receiving feedback depending on the efficiency of reviewers.
- After receiving comments from referees please follow instructions for responding to comments and submitting a revised manuscript.
